## **D-Lab invests Dacorum Dragon's Den award money on state of the art 3D printers for creative innovation Hub in Berkhamsted**

On the 20<sup>th</sup> July this year D-Lab Studios were one of the winners of the Dacorum Dragon's Den and were thrilled to receive £1000.

This was spent on 2 'Up Mini' 3D printers. Ed Fish , Director of Programme at D-Lab says “We are so pleased to have been able to purchase these state of the art machines ,as they will allow us to run 3D printing workshops in Berkhamsted and give everyone the opportunity to explore this new creative technology”. Details of the workshops will be released soon.

The photo is of Xavi Baker, 15, a local student who did his Duke of Edinburgh scheme with us and then stayed on as a volunteer. He is a regular at our Open Make Nights on Tuesdays.
