

Your idea for the Herts Year of Culture 2020 Activity Pack

HYOC2020 and Creative Hertfordshire are collecting creative and cultural activities from across our county for Hertfordshire residents of any ages to be creative and cultural.

These can be short tasters, involving materials people may already have around them, and they will encourage people to try something they haven't tried before, or take up an activity they have not done for some time. We are looking to promote activities in the arts, culture and heritage that can be completed on your own or together with others and are intended to improve wellbeing.

Each activity shared will credit you, so people can follow up with you afterwards.

The HYOC2020 activity pack will be available to download for free at www.creativehertfordshire.com, where families and organisations supporting Hertfordshire residents are already looking for resources they can try.

Tell us about you:
